

Génération de Jeunes pour Christ
GJC

Monsieur le Président
de la Fédération France Nord
JENNAH Daniel

Monsieur le Secrétaire
de la Jeunesse France Nord
DOWDING Sean

November 16th 2010

Dear brothers,

We write you this e-mail to present you a project : the creation of GJC (Generation of Youth for Christ). We regret to send you this information lately. We are several Seventh Day Adventists young people, baptized, and engaged in our local churches, our dearest wish is to have a punctual gathering tool for young people and preach the Gospel. Our desire is to create in France something like "GYC" in the United States, or "Youth In Mission" in Germany.

We went to Switzerland for the ASI revival meeting October 2010, where Israël Ramos, one of the funders of GYC, was preaching, in order to meet him. He encouraged us to continue in this project.

Taking cognizance David Gates passage to Paris, we saw in there, the opportunity by inviting him, to make concrete a beginning of potential future GJC meetings. It is with the support of the association 'Découvertes Etonnantes' that we could rent the Exposition Hall in Dreux, which was unexpectedly released at the time of David Gates passage. We are pressed by the time, knowing that you may have been offended by the fact that flyers have already been circulated in Paris that Sabbath, 13th of November.

Nevertheless we earnestly wish your support and prayers, that would be a blessing for the young people, in launching this project.

And for this, in order to promote a revival for the youth and layman, it might be beneficial to collaborate with ASI France on the 4th December and take advantage of this Hall at the Parc des Expositions in Dreux. Such a meeting has already taken place in Barbados, with almost the same speakers, from the 19th to the 22th August 2009 at the Sir Garfield Sobers Auditorium :

We remain at your disposition.

Please receive our brotherly greetings in Christ.
